

THANK YOU!! For your Business in 2010!!

CL #41

**Wishing All of You a Very
Merry Christmas & a Happy New Year!**

Looking forward to a better next year!!

Atlantic-Pacific Trading Company

Thanks you all for your continued marketing support of all our products.

Treble **NEW FOR 2011.** Stabilize your 28/32% UAN with this slow release nitrogen agent for UAN solution. Very economical. Try some in 2011! If you used Upgrade this year and have a need for UAN...boy will you be happy with Treble.

Upgrade Slow release nitrogen agent for urea using polymer technology...stabilizes your nitrogen. Economical and dries very fast in blender. Used on thousands of acres in 2010.

Hook **Hook** is a non-ionic surfactant, spreader/sticker, surfactant/adjuvant, for insecticides, fungicides, and herbicides. **Hook** is an excellent drift control product, activator and penetrator with a built in deposition agent.

It is good business sense to use **Hook** in your custom application rigs and sell to your customer. Add **Hook** to every spray tank. Remember to 'ADD **HOOK** LAST'

Work-Horse Aggressive spray tank cleaner. Cleans out 2,4 D, dicamba, Valor®, atrazine, and others without harsh chemicals such as ammonia, alcohol, or bleach.

Mic-Ro-Pac **11-8-5** Foliar feed fertilizer with 7 chelated micronutrients. Very economical. If your crop is stressed...here is its 2 week vacation! Ask for our 'Leaf'let.

Please check with your distributor for the 2011 Early Order Prices.
